

Matias Nahuel Murua Martinez

QA ENGINEER / QA AUTOMATION ENGINEER

QA Engineer with 5+ years of experience across manual testing, automation, APIs, databases, and CI/CD for e-commerce, SaaS, telecommunications, and analytics products. I uncover product risk early and connect requirements with clear evidence across web, API, integration, and database layers.

CORDOBA, ARGENTINA / REMOTE ROLES & FREELANCE QA / ENGLISH B1 - PROGRESSING TO B2

PROFESSIONAL FOCUS

FUNCTIONAL QUALITY	AUTOMATION	API & DATA
Functional, exploratory, regression, smoke, integration, E2E, UAT, requirements analysis, acceptance criteria, and risk-based testing.	Cypress, JavaScript, Selenium WebDriver, Python, Behave, Cucumber, Page Objects, CI/CD, and Playwright learning projects.	Postman, Swagger, Cypress API, REST APIs, Oracle SQL, DBeaver, and UI-to-API-to-database validation.

HOW I WORK

01 UNDERSTAND	Analyze requirements, business rules, users, acceptance criteria, and risk.
02 DESIGN	Build test scenarios, cases, data, scope, and traceability around critical behavior.
03 VALIDATE	Execute exploratory and repeatable checks across UI, APIs, integrations, and data.
04 COMMUNICATE	Report defects with evidence, clarify impact, retest fixes, and inform release decisions.
